OUR PROPOSED SYSTEM HAS SEVERAL ADVANTAGES

User
friendly
interface

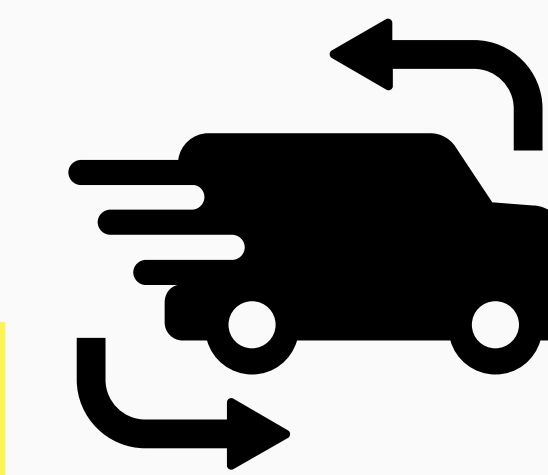

fast
access to
database

less
error

More
storage
capacity

Look and
feel
environment

How vehicles are associated with warehouse ?

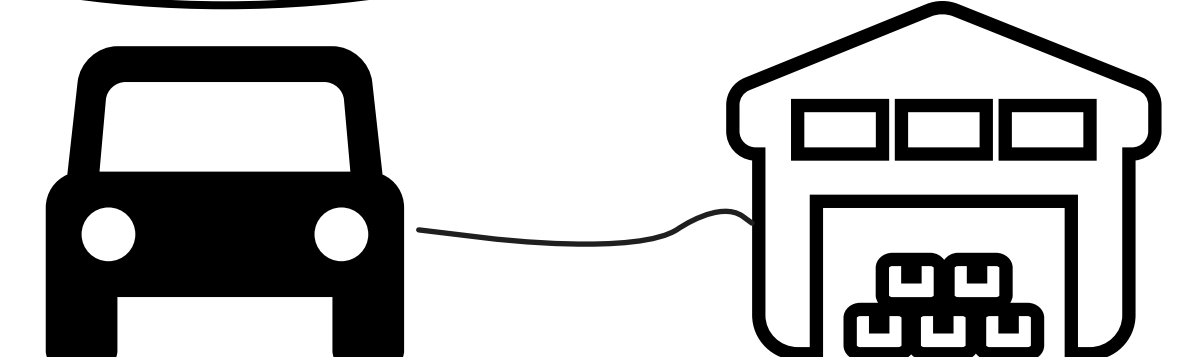

Create and manage vehicle records to optimize the usage of your trucks and trailers that carry inventories to stores.

To track the vehicles that carry goods out of a warehouse, assign them to that warehouse

Add a vehicle:
Create a vehicle record for each vehicle that's used to transport goods to retail stores

Assign a warehouse to a vehicle:
To track the vehicles carrying goods out of an warehouse , assign a warehouse to a vehicle.

Warehouse

Master Data and Tours are assigned to the warehouse. The warehouse is the central element for data distribution.
